

SNOW ANGELS CANADA

Who are the Snow Angels?

Snow Angels is an experiment in kindness. Canadians can request assistance to have their driveways and windrows cleared during our snowy winter months. Volunteers can find neighbours or community members in need of assistance. It's neighbours helping neighbours, and building strong connected communities while we're at it.

Snow Angels is strictly a volunteer platform that originated in London, Ontario in 2015.

What Exactly Am I Signing Up for?

It's Canada, and it's winter. Snow happens. You'll be volunteering to help those who may need extra support when it comes to clearing out their driveways after a snowfall. We have a map on our website that locates those in near you how have requested a Snow Angel. The rest is up to you!

For both safety reasons and to increase the fun factor, we recommend that you form a 'halo' – a group of friends and/neighbours when you head out to shovel. You can find other Snow Angels on our website – so it's super easy! Plus – shovelling is easier in numbers.

Who Can Request Service?

Anyone in need of support! Snow Angel clients are typically older adults and those with physical disabilities.

Who Can Volunteer?

Anyone who is willing and able. Snow Angels is 100% volunteer based. It's a community fuelled tool to connect neighbours and their neighbourhood.

Ok, I'm In!

Great! Head to our website at www.snowangelscanada.ca . From there, you'll be able to create an account and register. It's that easy. Happy to have you on board!
